### Current Issue of Topic / テーマが抱える課題

While world hunger is still a prominent issue across the globe, as well as subjects including the lack of agricultural knowledge, poverty has left people without the chances of finding the nourishment we as humans need to survive. As the population rises, the need for food is more demanding, and we must face the circumstances and handle the issues accordingly. With the lack of agricultural knowledge, it has led to see the less expensive side of things, to buy anything that seems reasonable and to fill the gap of nourishment. Yet it isn't always healthy, our project's focus is to bring a cleaner, healthier environment to our nations, our communities, and to our homes.

飢餓は世界で最も大きな問題になっている。農業に関する知識の不足、貧困層の人々が栄養のある食事を摂取できない状況、人口の増加に対する食糧の不足問題など、様々な問題が原因である。特に農業に関する知識の不足が大きな問題と考える。より健康的な生活を送るために、私たちはその問題に対して解決策を考えた。

### Solution of Issue / 解決策

Our concerns focus on the hunger that take numerous lives including many children. At this moment children and adults are suffering in famished areas with little to no help as if the world is oblivious. M.A.P. Was started by three teenage girls to help the areas around the world that are affected by previously stated problems. We present an idea where we would work hand in hand for a brighter future making greenhouses created from recycled bottles making it less costly and healthier for the environment. In these greenhouses families will work together to plant and grow their own healthy food.

飢餓に苦しんでいる子どもたちがたくさん命を落としていることに注目した。子どもや大人もまた飢餓に苦しんでいるのに、目を向けようとする人は少ない。リサイクルしたペットボトルを使って温室を作り、安くよりよい環境で植物を作ることを考えた。その温室で食物を育てることが、私たちが考えた解決策である。

### Message to Audience / メッセージ

We have been very grateful for this opportunity to come here and participate in the 2019 International Food Summit. Through this journey, we have learned the grave measures of the world hunger issue globally. And we hope our idea can contribute greatly to the many places in the world. But WE must be the change. We are the root of this growth in our nations. We must do better for the futures of ourselves and the futures of others. As students, we have yet to learn the impacts of the choices we have to face in our lifetimes, but we are capable of much more. We are capable! You are capable! We must work together in unity, thank you, it has been a pleasure being here, and we hope it opens your perspective to see the help we want to contribute to make our Earth a healthier, more agricultural environment for our future generations that are to come.

食のサミットに参加する機会をいただき感謝している。準備を通して、世界が抱える飢餓問題がいかに深刻であるかがわかった。しかし、私たちにはできることがある。私たちがみんなが協力して、未来の世代のために、地球をよりよいものにしたい。
